

Environmental Performance Policy

Vision

Whatungarongaro te tangata, toitū te whenua

As people disappear, the land remains

We will reduce our impact on the environment, for the future good of our land and our Mokopunatanga – for our grandchildren’s grandchildren

Background

This document serves as a guide for Scion’s day-to-day activities so as not to compromise future generations.

Policy Statement

Scion will improve sustainability in all facets of business, through:

- Reducing what we use, returning or re-using items, recycling and rethinking how we do things;
- Optimising travel and energy use to reduce carbon emissions;
- Adopting practices and technologies that improve the efficiency of our resource use;
- Adopting sustainable value chain practices in our procurement decisions;
- Show-casing our sustainability knowledge in our building renovations and design, energy management, process efficiencies and community behaviour;
- Engagement of staff in activities that embed sustainability as “the way we do things around here”; and,
- Setting clearly defined sustainability targets, and regularly monitoring, reviewing, and reporting our progress against these.

Scion will take responsibility for impacts on the environment through:

- Compliance with all relevant legal and statutory environmental requirements;
- Commitment to preventing pollution and protecting the environment; and,
- Continual improvement of our environmental performance.
